# Risk-Free
# DRaaS

## Experience a 100% Satisfaction Guarantee or your money back with Flexential DRaaS

When a disaster strikes, every second of downtime matters. With Flexential DRaaS, you'll benefit from a flexible and cost-effective disaster recovery-as-a-service (DRaaS) solution to protect your IT infrastructure against disruptions, minimize data loss and maintain business uptime.

## Invest in Flexential DRaaS knowing that you can cancel within 120 days penalty free and receive your money back

The Flexential DRaaS enables your IT environment to be always on and compliant with regulatory requirements, and to prove it, Flexential is offering a money back guarantee for up to 120 days after the DRaaS is fully implemented and tested if you are not satisfied. With the Risk-Free DRaaS program, you'll receive:

- Full support of your DRaaS environment
- Full implementation and complete failover testing
- Full connectivity build-out for testing and DR failover

## Requirements

- Businesses need to subscribe to Flexential DRaaS Base package.
- To be eligible, businesses must have a minimum of 20 servers for Flexential DRaaS subscription.
- To receive a refund, a disaster may not be declared within the first 120 days after service activation.
- Refunds are not offered on any add-on DR services provided by the Flexential Professional Services team or assisted tests.

### ABOUT FLEXENTIAL

Flexential empowers the IT journey of the nation's most complex businesses by offering flexible and tailored solutions in colocation, cloud, data protection, managed and professional services. The company builds on a platform of three million square feet of data center space, in 20 highly connected markets and the FlexAnywhere™ 100 GB private backbone, to meet the most stringent challenges in security, compliance and resiliency. ## FLEXENTIAL

**Flexential Founded**
1999

### Benefits

With Flexential DRaaS, you'll experience a flexible and reliable cloud-based DR solution designed for fast recovery of your business-critical environment.

- Minimize data loss with low RPOs and RTOs. Near-Real time replication of data, applications and systems to a secure cloud environment

- Take full advantage of your DR environment. A secure offline environment to test upgrades and DevOps

- Save money with a cost-effective DR strategy. No upfront capital investments or in-house infrastructure and reduced internal DR staff requirements
