Richmond Data Center

The Richmond data center spans nearly 30,000 square feet and is built strong to keep your business up and running. The site features fully redundant UPS power equipment and energy-efficient cooling.

We offer premium connectivity, including an industry-leading 100-gigabit network backbone -- scalable to 400 Gbps, carrier hotel connectivity, Layer 2 access to 80 on-net carriers, proactive Layer 3 and Layer 4 distributed denial of service protection and a 100% network and bandwidth uptime commitment.

Security and compliance support are part of the package. Our physical security features include, among others: 4-zone security access, biometric scanners and monitored security cameras and intercom systems. The site is compliant with several industry and regulatory standards. We are among a select few in the industry that can provide a certified, protected environment to support compliance with PCI DSS.
