Allentown Data Center

With a cloud node on-site and a network backbone of 100 gigabits per second, scalable to 400 Gbps, our Allentown data center is exceptionally equipped to support your IT transformation journey and deliver low latency and high capacity for your mission-critical applications. Rely on us for Layer 2 access to 80 on-net carriers, proactive Layer 3 and Layer 4 distributed denial of service protection and a 100% network and bandwidth uptime commitment. The data center features fully redundant UPS power equipment, plus an N+1 redundant and energy-efficient cooling system. Rest assured that your infrastructure will remain fully operational and connected around the clock. If you are in the healthcare industry or if you process credit card payments online, we are here to help secure, manage and maintain compliance. The Allentown data center is certified for compliance with several industry and regulatory standards, including the HITRUST CSF and PCI DSS.
