

Streamlining your connections with Flexential Marketplace

Unlock the power of marketplace-driven interconnection in 6 simple steps

Looking to simplify service discovery and connect faster?

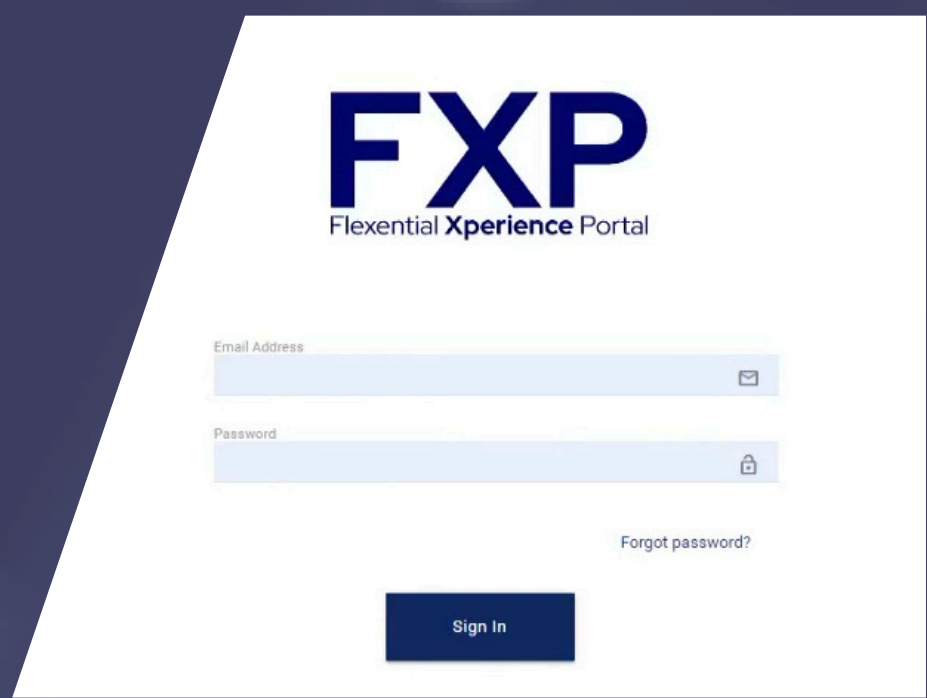

The **Flexential Marketplace**—available through the Flexential Xperience Portal (FXP)—makes it easier than ever to find, connect, and collaborate with service providers and colocated partners.

This guide walks you through how to create your profile, initiate connections, and manage services step-by-step. Whether you need a virtual link to the cloud or a physical cross connect to a partner in your facility, it all starts here!

1

Log in to FXP

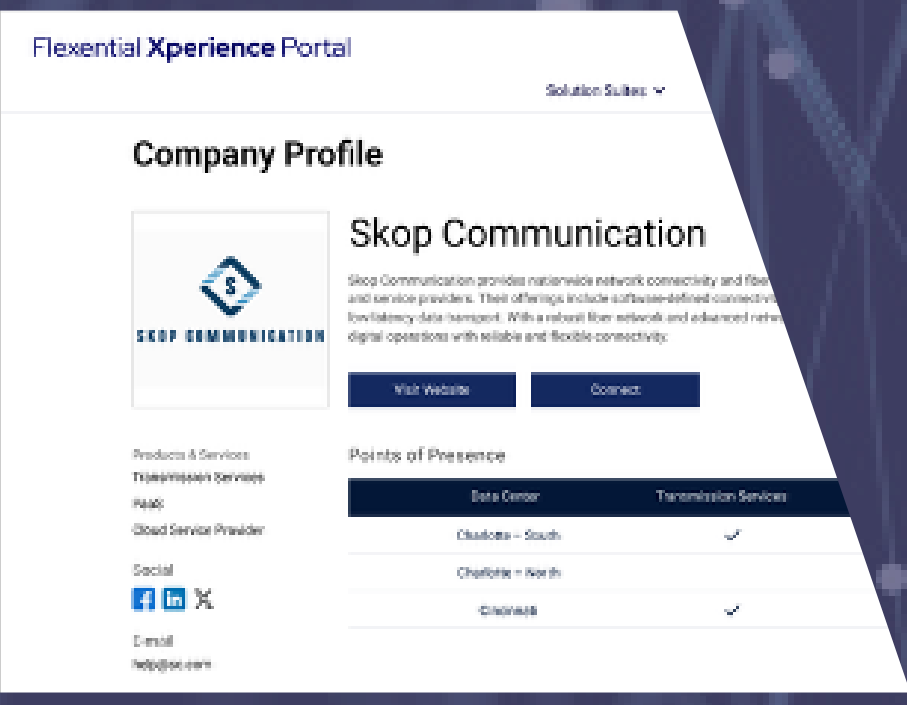

It's easy to get started—just log in to your FXP account and click “Marketplace” in the top navigation. **You're one step away from building your digital ecosystem.**

2

Create and customize your profile

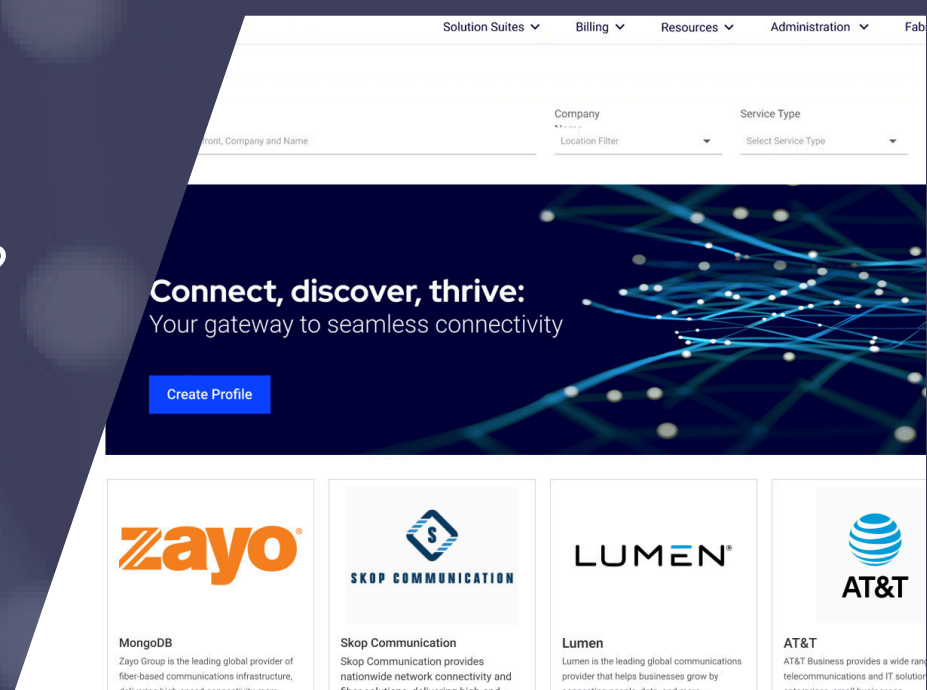

Show the ecosystem who you are. Add your logo, company bio, services, and set your visibility preferences—public or portal-only. **It takes just a few minutes to stand out.**

3

Discover and connect

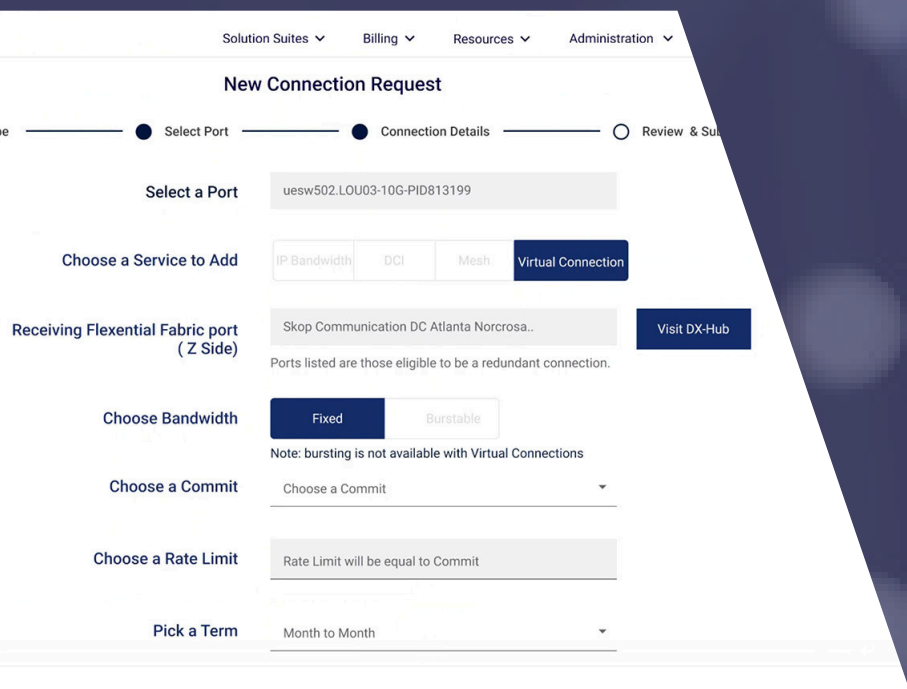

Ready to find your next ecosystem partner? Search by name, metro, or service type. With one click, you can view provider profiles and request a connection—**no guesswork, no delays.**

4

Choose your connection type

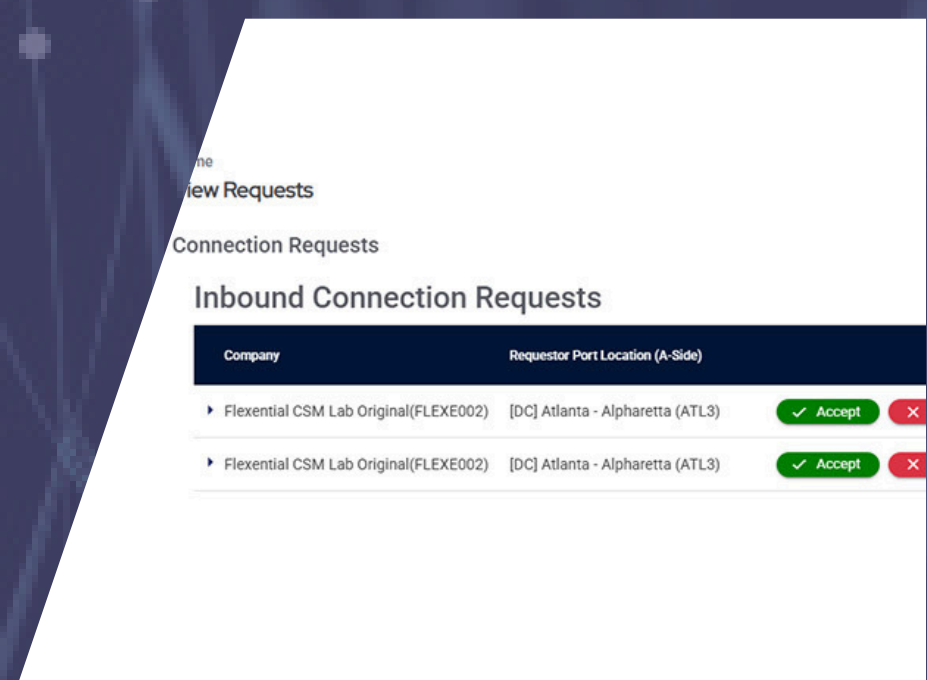

Need a lightning-fast digital path? Pick from Fabric Virtual Connections to seamlessly span across metros or Physical Cross Connects, perfect for same-facility connections. **Simply follow the guided steps to submit your request—no manual work required!**

5

Approvals & Notifications

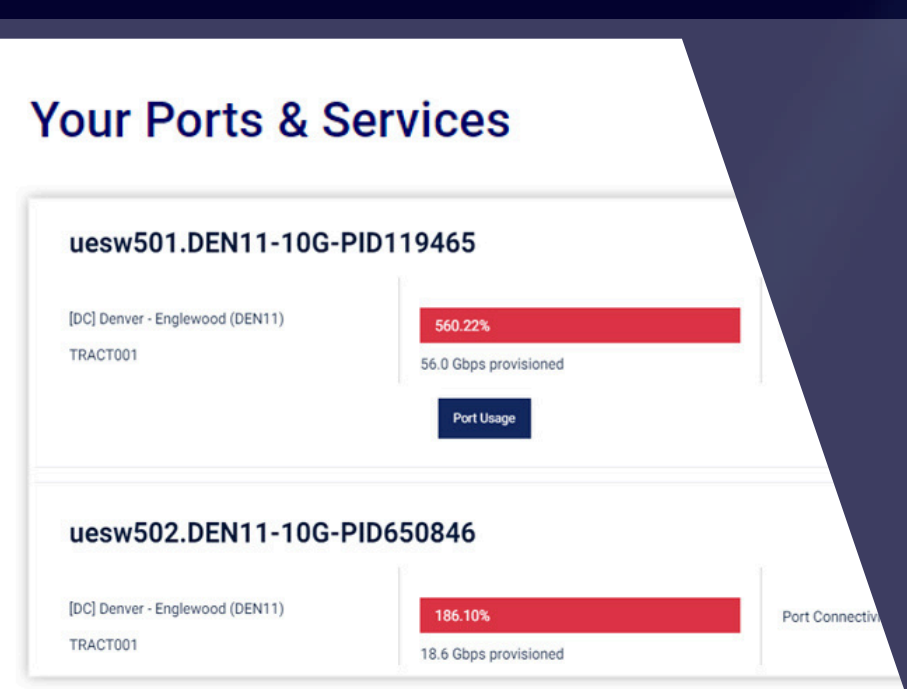

Once submitted, the recipient is notified. They can approve or reject it, and you'll receive automatic updates to **keep things moving—no follow-up needed.**

6

Manage and monitor services

You're in control. Log in anytime to view active connections, review your service history, or make changes as your needs evolve. **It's all self-service—and always available.**

Seamless connectivity at your fingertips!

The **Flexential Marketplace** is designed to help you build smarter. Whether offering services or discovering new ones, it's the easiest way to connect across the FlexAnywhere ecosystem.
